THE SECOND MAJOR PAN-EUROPEAN CONFERENCE ON RAIL FREIGHT • THE SECOND MAJOR PAN-EUROPEAN CONFERENCE ON RAIL FREIGHT

Freight is one of the key issues on the European Union's transport agenda.

Already today, fifty percent of rail freight crosses the border in Europe. In light of the enlargement of the European Union to 25 members, the urgent need to shift freight from road to rail and the EU's strive to make transport more sustainable, top policy-makers will meet for the second time in Munich, Germany, from 29 to 31 May to discuss these issues. Following the success of the EurailFreight 2003 conference, the Community of European Railway and Infrastructure Companies (CER), the International Union of Railways (UIC), the Union of European Railway Industries (UNIFE) together with Stinnes AG are organising EurailFreight 2005.
